

What is NetTPS™?

The NetTPS™ approach is based on the fundamental principle that core values are the drivers of action, and the premise that values are the origin and location of our sense of who we are. NetTPS™ focuses on identifying and leveraging those core values that drive us all. The resulting exploration enables people to increase the range and power of their contributions in ways that match their purpose and desire for growth.

Why do clients use the NetTPS™ methodology and tools?

NetTPS™ is designed to produce questions for reflection and insight, not give pre-determined answers. The value lies in the facilitation and subsequent discussion of areas of behavior, thinking and emotional responses. The system and approach work effectively with both individuals and teams.

The NetTPS™ approach allows participants to:

- Explore their deepest values, without compromise, sentimentality or evasion
- Develop new perspectives and make better decisions that lead to actions aligned with values
- Explore solutions and strategies that best suit individual and team's fundamental values
- Enhance the confidence, energy and inner resolve that already exist within them
- Recognize tendencies that decrease effectiveness and satisfaction
- Aligns their values and talents with commitments

The use of NetTPS™ will enable participants whether an individual, a team or an entire organization, to re-ignite conscious choice to see possibilities and discover how to create the right actions to make best use of their strengths.

Why NetTPS™ Certification?

The NetTPS™ certification program is an in-depth training track designed for new solutions providers (NSP's) which will result in competence and confidence when using the NetTPS™ methodology in training, coaching or consulting settings. This certification process engages participants to:

- Learn the NetTPS™ model
- Utilize the model and tools to meet their personal and professional objectives
- Experience proven approaches that you can implement as a value add to your current approach
- Access to an extensive library of papers and further coaching support on the system and approach
- Expand your network and professional development with membership in the NetTPS™ community

What are NetTPS™ Certification Requirements?

Timeframe to complete certification requirements averages 3 months.

- Participation in the 8 week Telecourse (must attend at least 7 of the weekly one hour phone calls)
- 2 Peer feedback reviews
- 2 Letters of client experience
- 1 Recorded client session for NetTPS™ certification board review
- Explore results with a minimum of 15 individual clients
- 6 hours of peer coaching on individual values

What is included in the NetTPS™ training package?

- Training manual
- 8 one-hour telephone training sessions:
 - Introduction and Overview
 - Using the Online System and Methodology
 - Exploring the results - Core Values, Hot Buttons, and Blind Spots
 - Feedback Approach and the Vital Importance of Not Knowing
 - Spider Charts and Dilemmas
